### Chicago 17<sup>th</sup> B (Author-Date) Sample Reference List

Last updated March 2018

When creating your reference list, keep in mind:

- All references cited in your assignment should appear in your reference list in **alphabetical order**, by author's surname, or title (if no author is given);
- Titles (whether italicized or not) should appear in **headline-style capitalisation**, where each significant word is capitalised;
- Use a **hanging indent** for each reference (as shown below). It makes the reference list easier to read.
- **Attention to detail** – especially in the formatting, or appearance, of your references is key! Make sure you follow the formatting shown for the particular reference type exactly.
